ELBA, ALABAMA 36323, THURSDAY MAY 1, 1969

NUMBER 41

Elba Tigers Post 4 - 4 In Baseball

The Elba Tiger Baseball team lost three games this last week while winning only one. They lost to Luverne 18-3; Troy 17-11 and to Brundidge by a score of 10-2 while defeating Enterprise 3-3. Their record now stands four wins and four losses.

A highlight of the Enterprise game was a triple play, an almost unheard of event in high school games. The play unfolded from Donnie Holley to Douglas McNeil and then to Dean Smith. The winning pitcher was Johnny Martin. Getting hits in this game were Bimbo, Martin, Sharpless, Paul and Dennis and Dean Smith with one hit each and McNeil with two hits.

The Enterprise game was part of a county-wide tournament with the winner to meet the Covington County champs. Elba will meet Kinston this Friday to complete the tournament.

Elba is also scheduled to meet Opp this Friday but this game may be cancelled. The Tigers will travel to Greenville on May 3rd for a night game and will play host to Luverne on May 5th at 7 p.m. Enterprise will visit Elba for a return bout on May 6th at 7:30 p.m.

All homes games are at Legion Field according to Coach Randy Griffin.

KINSTON GETS GRANT FOR LOW RENT HOUSES

Senators John Sparkman and James Allen and Congressman George Andrews announced Department of Housing and Urban Development approval of program for leasing 10 low-rent homes in Kinston.

The newly constructed units will be located throughout the city. Two will be for the elderly.

VICTORIA BAPTIST PLAN HOMECOMING ON MAY 4TH

Homecoming has been scheduled at Victoria Baptist Church. The annual event will be held Sunday, May 4th. Dinner will be served.

There will be a congregational singing in the afternoon. All former pastors and members as well as friends are invited to attend. The church is located twelve miles out of Elba on the Brundidge highway.

Local Girl Honored At Auburn

Janet Murphree of Elba has been tapped for membership in Mortar Board, the scholastic and leadership honorary for senior women, at Auburn University. Only twenty-one girls received the honor, which is the highest honor a senior woman can receive.

Miss Murphree is majoring in business administration and has a 2.01 over all average out of a possible 3.00. She is Panhellenic representative, vice president of her dormitory, and participates in intramurals.

Miss Murphree, daughter of Mr. and Mrs. Boyd Murphree, was also recently elected President of Sigma Lambda chapter of Kappa Delta Sorority.

Death Claims Kinston Based Manufacturer

Mr. Barney Pruzan, owner of the Kinston Manufacturing Company passed away in New York on Friday night, April 25. Mr. Pruzan also owned a garment factory in Trumbull, Tennessee. Both plants made boys' and men's jackets. Sales offices are located in New York. Mr. Pruzan, age 76, spent most of his time at the Kinston factory. He was an ardent fan of the Kinston Basketball team.

Funeral services were in New York on Monday. He is survived by his widow Mrs. Esther Pruzan, two sons, William and Robert Pruzan and six grandchildren, all of New York.

ELBA HIGH SENIOR PLAY has been set for Friday May 2nd at 7:30 p.m. in the high school auditorium. The play cast for "Bad Seed" includes from left to right: Terry Hanchey, Bath Farris, Pamela Davis, Elton Madison, Eddie Cooper, Jack Hudson, Seated: Candace Oggs, Ella Mallory, Keith Baker and Judi Davis.

AT CITY HALL

The Elba City Council's Monday night, held its first meeting since the return of members from the state meeting of the Alabama League of Municipalities. The meeting had been postponed for one week due to this statewide meeting. The first order of business was to hear Boyd Murphree and Mack Wise on the subject of charging unloading licenses to trucks coming into town infrequently. Both men stated that many companies hauling their own product, could not afford this license in all the many states they travel and this caused a hardship on small town merchants. The merchants have to go out of town to meet the trucks and get their merchandise rather than have it delivered at the store or warehouse. No action was taken on this matter.

Byron Bruce met with the council and was given permission to solicit city employees on a payroll deduction plan of life insurance. He was representing National Security Insurance Company. The council voted to start collecting the sewer charges on June 1st. This is the charges put on the pay for the expanded lines and waste ponds that were required by state and federal laws. The charges will not apply to those who are not presently on city sewage.

Robert King Construction Company was awarded the contract on the construction of a bathroom at the Mulberry Heights Pool. His low bid was for \$3600. It is to be finished by the last of May.

Donnie Morrow reported that it was impractical for the Army to install an emergency helicopter pad at the Elba General Hospital due to the limited space. Chief Smart reported that the Elba police had been using the recently purchased radar unit and had stopped speeders on every major road except Smith Avenue. The education program has included warning tickets in the past, but Smart plans to start "for real" in the near future.

The council turned down a proposal to reduce the license for vegetable peddlers from the established \$15 per day.

Mayor Brunson was instructed to check with the City Attorney about the various methods of acquiring additional city property. He is to report to the council at the next regular meeting.

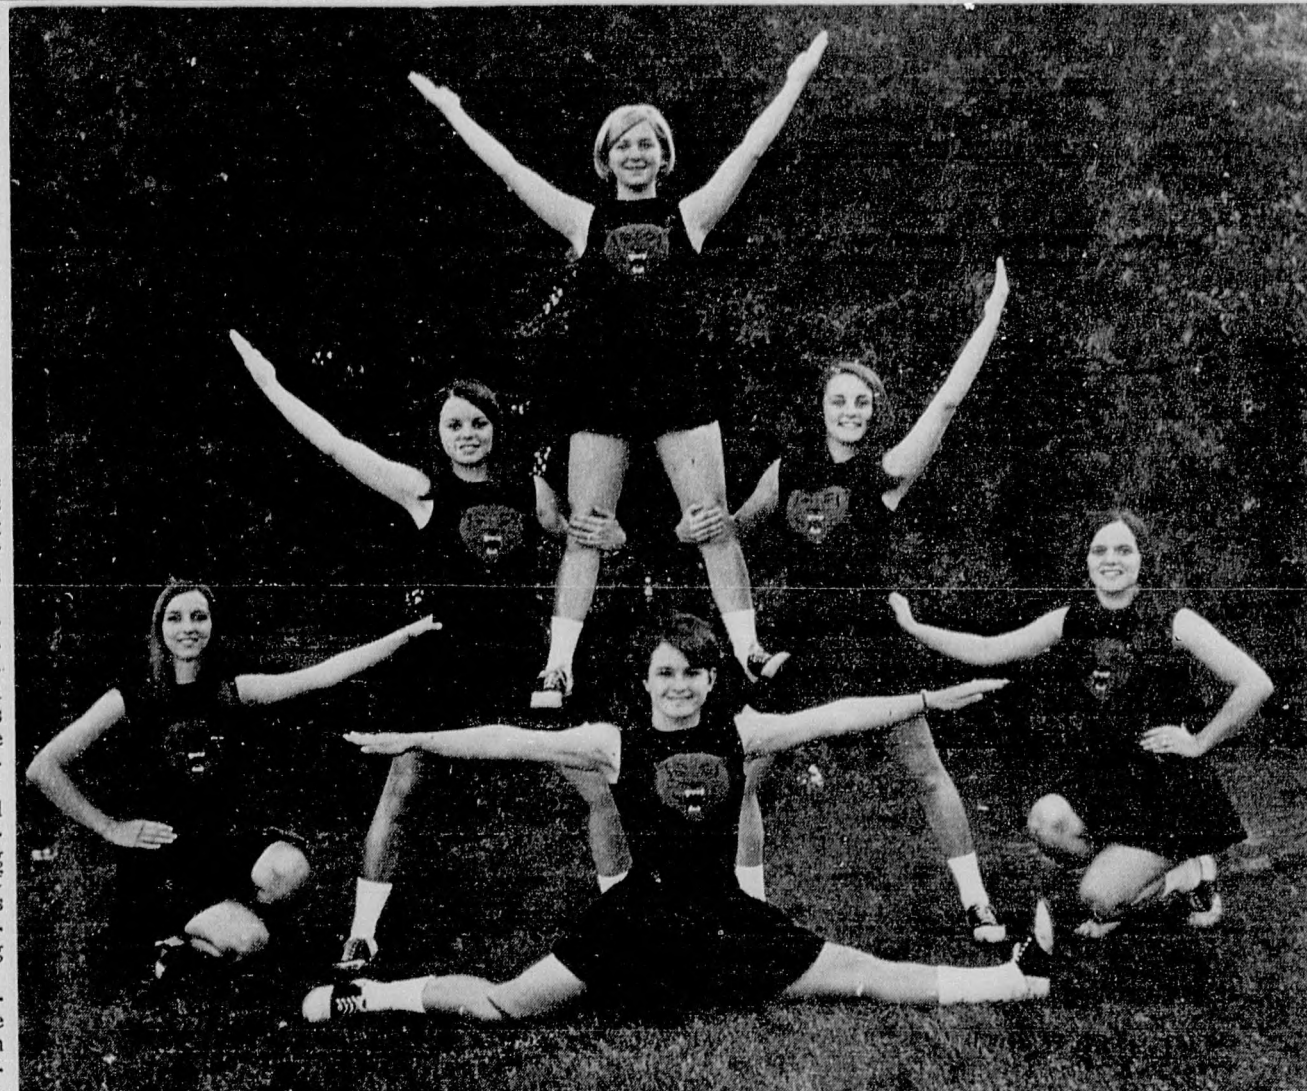

The council failed to take any action on the proposal for the sale of the City Lot in New Town. The City Clerk was instructed to work with the local school in setting up a School Trust Fund for the money the city is currently paying into the school system. This was to allow the schools credit for all local effort under the bills now pending in the Alabama Senate.

The council voted to accept the budget of the Recreation board and concentrate their efforts as a group and as individuals to help the Board improve the local recreation program.

The Council was asked to clarify a motion of several weeks ago pertaining to the number of days of pay the City Clerk was to pay councilmen attending the League meeting in Mobile.

Another item of business on the agenda was the discussion of the expansion of the local airport to include a 3,000 foot runway. This subject was tabled due to the planned Thursday night meeting in Enterprise of a group interested in building a joint City-County airport near Enterprise.

Also the council voted to raise \$80,000 for current school construction.

General Names Entz To Head Dothan Area

General Telephone announced the appointment of William L. Entz as head of the phone firm's Alabama operations. The announcement was made by Fredrick C. Rahdert, of Durham, N. C., president of the General Telephone Company of Alabama and also of General Telephone Company of the Southeast. As general manager in Alabama, Entz will have full authority and responsibility for all phases of the company's operations in 39 Alabama communities, where General operates over 80,000 telephones.

He replaced C. A. Swallows, who moves to a position in the engineering department of General's seven-state headquarters office in Durham.

WILLIAM ENTZ

President Of Rubber Co. Coming To Elba

Mr. John J. Stephens, President of I. B. Kleinhart Rubber Co. of New York, has scheduled a trip to Elba for May 21st. Kleinhart is the company city officials have been courting in an effort to secure additional employment for local women.

Several weeks ago Mr. Jack Brier, Chairman of the Board, and a major stockholder was in Elba and told local and state officials that his company would make a decision in several weeks. The scheduled trip by the company president has led local officials to privately concede that they feel he is coming to finalize plans to definitely locate a plant in Elba.

Another strong indicator is the fact that also making the trip will be the man assigned by Chairman Brier to be project manager for their proposed company expansion.

Elba officials have already made tentative plans for the operation of the temporary quarters and with the State Industrial training personnel. Currently talks are center-

Awards Announced For Ft. Rucker Workers

Forty-one civilian employees at Ft. Rucker have received Incentive Awards for outstanding job performances.

Among those receiving Outstanding Performance Ratings were Mrs. Roy Adams of Elba, working in the Office of the Assistant Chief of Staff, G-3 (Plans and Operations).

Mrs. Frank Clark of Elba received an Outstanding and Quality (pay) Increase. She works in the Office of the Director of Instruction.

Quality Increases went to several employees including Miss Mahlon L. Mooney of Elba. She works in Airfield Operations.

MRS. ROY ADAMS

Contract Let For Building New Elba Gym

Madison Construction Co. of Ozark was awarded the bid for construction of a four room classroom addition to the Elba Elementary School and the construction of a new gymnasium at Elba High School. The gym is to replace one destroyed by fire several years ago. Total cost of the project is \$259,295.66.

Insurance received from the insurance on the old gym was \$77,010.45 (including interest). This was added to a 90,000 bond issue against the 3 mill city property tax and other funds including an \$80,000 pledge from the City of Elba.

School officials state that this will deplete their funds and are concerned about the availability of funds for construction of projected needs in the next year or so.

The classrooms will be completed by September 1st and the gym by December, 1969.

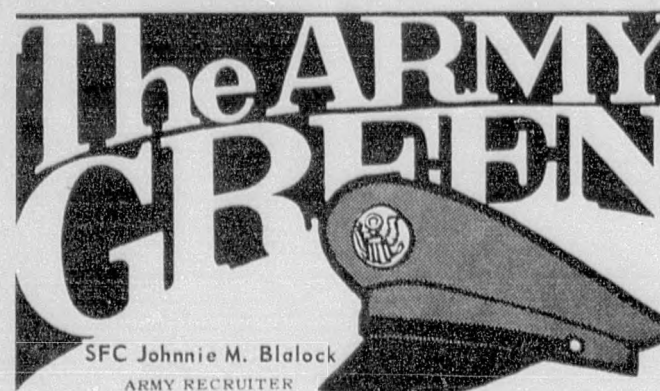

MISS MAHLON MOONEY

MRS. FRANK CLARK

MAY

POOR ORIGINAL

Few people realize what an important job the Army does here in the United States for all of us. We're thinking of the excellent work done by the Corps of Engineers. The Corps is responsible for flood control projects and, among other things, the planning, maintenance and improvement on all rivers, harbors and waterways in the United States. It operates the locks on the Ohio River, maintains the American part of the St. Lawrence Seaway and dredges

MUTUAL SAVINGS INCREASES BOTH BUSINESS & PROFIT

"The most dramatic feature of Mutual Savings Life Insurance Company's 1968 operations was a 37% increase in operating profits." This was the message which highlighted the 42nd Annual stockholders' Meeting of Mutual Savings Life Insurance Company at its Decatur, Alabama home. Reuben C. Collier, Company President, told the 325 persons attending the meeting that the next most outstanding achievement for the company was the growth of the company's weekly premium debit. It was \$200,834 at the end of 1968. The gross income is now over \$17 million and the company had an income gain of \$1,885,961 during 1968 which was a 12% gain over the preceding year. Collier further stated that an increase of \$6,642, 223, or 14%, during the year 1968 placed the company's gross assets figure at \$55, 668,865, the highest point in the gain in the one year 1968 exceeded the company's growth in assets during its first 25 years.

serve?

--That former President Harry S. Truman was a major in the National Guard and saw combat duty in France during World War I?

--That 138,073 babies were born in U. S. military hospitals throughout the world last year? That's one baby approximately every three minutes!

QUESTION OF THE WEEK
How old does a girl have to be to join the WAC?
The answer is eighteen. However, young women need consent of a parent if they are under 21 years of age. If you have any additional WAC questions, please feel free to call Andalusia 222-3522.

RECORD NUMBER OF ENLISTMENTS
More men and women enlisted in the Army the year ending June 30 than in any one of the past 20 years. A total of 21,010 took the oath of office as enlisted men, officers, WAC's, student nurses, nurses. For comparison sake, during the same period of time, 343,597 men were drafted nationally.

RECENT ENLISTMENTS
While we are on the subject of enlistments, we had a couple in town this past week. They were Arnold R. Anderson and Ronald C. Jordan. Both men enlisted in the Delayed Enlistment Program and will enter active duty on 17 June and 30 May respectively. Anderson chose Army Security Agency and Jordan chose Automotive

BOOK COVERS ANYONE?
We have just received a supply of attractive book covers, and we will be more than glad to give them to any young men or women who will drop in to our office on 213 Dunson Street. Hurry up because the supply is limited.

FACTS ABOUT THE ARMY
Did you know --That John Eisenhower, the son of former President Eisenhower, is a colonel in the Army Reserve?

Highway Patrol To Work County

Friday, and Saturday night, the Alabama Highway Patrol will saturate Coffee County with 17 officers. There will be radar and license check according to Sgt. Harwood, Post Commander, Dothan District.

Thorns To Celebrate 50th Anniversary

Mr. and Mrs. W. C. Thorn will celebrate their 50th wedding anniversary on Sunday, May 4th. A reception given by their children will be held from 2 p.m. until 5 p.m. at their home. All friends and relatives are invited to attend.

Homecoming Set By Local Church

Homecoming will be held at the Elba Deliverance Tabernacle on May 4. The schedule includes the morning message; noon meal; afternoon song services and 2:30 message presented by Rev. Randy Hobbs of Albany, Georgia. The church is located directly out Newton Street. The public is cordially invited to attend.

Pre-School Clinic Set In New Brockton

Pre-School Clinic will be held at the New Brockton School on Monday, May 5, 1969, beginning at 8:00. Parents are urged to bring children who will enter First Grade in the fall of 1969. County health officials will be there to give health examinations. Birth certificates are required by state law. Parents and children will be excused to leave after registration. Children are to be accompanied by an adult.

maintenance.

THE COMING WEEK
We'll be around town during the coming week and we hope we'll be on our visits. For specific times and dates consult your local Board Clerk or Postmaster.

THE ELBA CLIPPER MAY 1, 1969

BRAINSTORMS

With Fern Cox

I promised that old loud mouth me would develop an opinion of the proposed City-County airport that is being pushed by the Enterprise City Council. Well, true to my word, I asked a lot of questions and turned them into an opinion. It is my opinion that this airport, as planned, would be an Enterprise city airport. It would be located only a few miles out of Enterprise and to reach it from Elba, you would need a road! The first runway would be only 5,000 feet long and that is not long enough for the use of a major airline. If one could be secured, I also wonder if the FAA would approve an airline for the already congested area around Ft. Tucker, which is one of the busiest, if not the busiest airport in the free world. I strongly urge the Elba city fathers to continue with their plans to expand the local airport. Don't let the FAA be wanting to buy a faster airplane which needs a longer runway. The new rubber company looking at Elba for a proposed plant must NOW land in Troy or Dothan with their jet. Add all this to the other local users and the growing interest in flying and I feel that it would be a major blunder to enforce and help pay for Enterprise's airport. I wonder if Enterprise would put up the \$80, 000 they are saving for an airport, if it were to be built between Elba and New Brockton with Enterprise people having to take three to four different highways and farm to market roads to reach it?

Following the election of any national, state or local governing body, we all look and wonder if it will go into history as a good one or a bad one. This has been especially true with our present city administration. They have done and will continue to do things that either you or I disagree with but, I believe that I am safe in predicting that the overall performance will be judged on the good side of the ledger when the

final accounting is done. This does not mean that we will all like it just the majority. It also does not mean that they will solve all the problems, because success and growth create and enlarge problems. The present City Fathers should get a feather in their cap for their effort to secure another industry for our town. Even if present talks fall through, they have given it their all out support, and should not be blamed for the failure.

It has reached a point where I cannot wear most of my clothes due to the shrinkage of them all in the waist. This prompted me to start a diet on Monday. Mack Wise decided to join me and made a contest out of it with a steak going to the winner. We weighed and put a thirty day limit on our efforts. Tuesday, Drexel Cook had heard about it and compared us to the weighing in of two prize fighters (heavy-weights of course). He then began a campaign to get me to jog with him each morning. Oh no, I tried that last year for a while and it almost killed me!

CONTINUED FROM FRONT

FACTORY

ing around the construction of a 175,000 square foot building that would house a plant employing 700 or 800 women. The plant, if built in Elba, would be located on a twenty acre site in the Elba Industrial Park. The plant would be located near the Farmers Livestock Co - Op and Hickman Moving and Storage.

If you were unable to register your child at the Pre-school Clinic on April 23, at the Elba Elementary School, it is very important that you call or come by the office and give us your child's name in order that we might make our plans for the number of teachers and classrooms that will be needed in September.

Frosty Morn HOT DOGS ea. **5¢**

Serving Begins at 9:30 a.m. and continues until 6:30

Jim didn't catch any fish today. Now, on the way home, he can't help casting an envious eye at Tim's haul. It isn't that he begrudges Tim his fish. It's just that, in his heart, he can't help wish that he had been the lucky one.

This is natural, and Jim is young. He's just beginning to learn that you can't always be a winner, but he still finds losing pretty hard to take in stride.

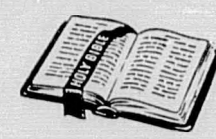

Fortunately, Jim is being given the advantage of Christian training in church during this all-important period in a boy's life when a sense of values is being formed. He is learning lessons which only the Church can give him.

True, Jim is envying a very small item — a string of fish. But envy and greed come to all of us on a larger scale many times throughout life. To meet this challenge squarely, it takes years of self-discipline. That is why religious training can never begin too early.

ATTEND THE CHURCH OF YOUR CHOICE SUNDAY

GREETING THE GUESTS at the Dickey Bridal Shower was Mrs. L. F. Inman, Miss Patricia Clark, sister of the bride, presiding at the registering table. Mrs. Kasper Anderson presented the guests to the receiving line (pictured above) composed of: Mrs. Aude Clark, grandmother of the bride; Mrs. Granade, grandmother of the groom; Mrs. Joe G. Dickey, mother of the groom; Mrs. James Clark, mother of the bride and the honoree.

A lovely silver candelabra entwined with yellow and white spring flowers adorned the refreshment table which was covered with a white cut work cloth over green. Punch was served from a beautiful silver bowl surrounded by yellow pom poms and greenery. Silver trays contained party dainties. Presiding at the refreshment table were Barbara Blair, Janice Davis, Sara Hargart, Kathy Smith, and Jane Heard. Soft background music was provided at the piano by Miss Sue Griffin and Mr. Tim Brown. A beautiful arrangement of red roses and white mums were on the piano. Mrs. Kimmy Dorsey and Mrs. Frank Mularz invited the guests to view the many lovely and useful gifts.

Mrs. Dickey chose a blue shantung coat-dress ensemble for the event. She also wore a lovely yellow corsage. Approximately 75 guests called during the party hours.

THE ELBA COUNTRY CLUB was the setting on April 19, for a bridal shower honoring Mrs. George Dickey (nee Cheryl Clark). Hostesses for the event are pictured above with the honoree. They were Mrs. Kimmy Dorsey, Mrs. Frank Mularz, Mrs. Maxwell Reeves, Mrs. Stokes Haire, Mrs. Fred Smith, Jr., Mrs. L. F. Inman, Mrs. Kasper Anderson, Mrs. Anyce Brazelton and Miss Jo Ann Brazelton.

Couple To Exchange Vows In June

Mr. and Mrs. James Kreshal Hayes of New Brockton, announce the engagement of their daughter, Sarah Elizabeth (Lib), to Ronald Lyle Burns, son of Mr. and Mrs. Lyle Erwin Burns also of New Brockton.

The bride-elect is the granddaughter of Mr. and Mrs. E. C. Brooks of Enterprise and the late Mr. and Mrs. Niven W. Hayes of New Brockton.

A graduate of New Brockton High School, she is presently a senior at Troy State University and will receive her B. S. degree in Biological Science in June.

While attending Troy State, she was a member of Beta Sigma Science Club and the Troy State College Singers.

Grandparents of the groom-to-be are Mr. and Mrs. A. G. Hollis of Arlington and the late Mr. and Mrs. Earl Henry Burns of Fond du Lac, Wisconsin.

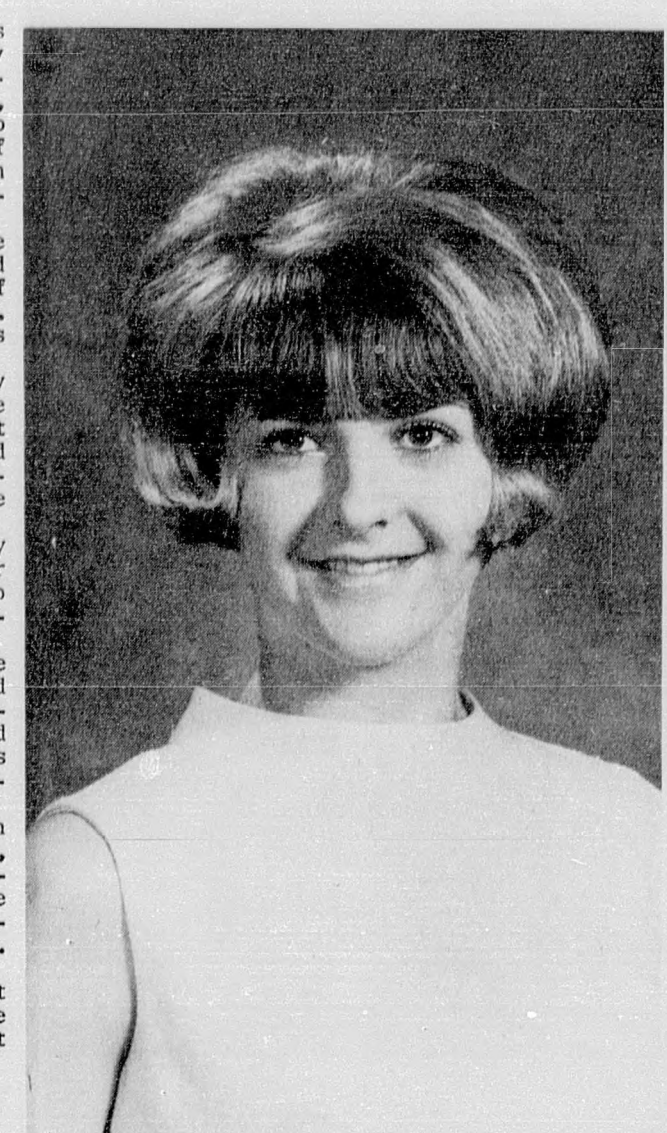

After graduation from New Brockton High School, he attended Auburn University and Enterprise State Junior College. He is presently employed at Ft. Rucker.

The wedding will be at 7:30 p.m., June 13, in the New Brockton Baptist Church.

PERSONELS

Mr. and Mrs. Fox Brunson, Jr., Jeana, Deborah, Richard and David of Mobile spent last week end with Mr. and Mrs. Fox Brunson and attended the Brunson Reunion.

Mr. and Mrs. Charles Hutchison; Mr. and Mrs. Pratt Williams and Mr. and Mrs. Jack Veil spent last week end with relatives in Elba and attended the Brunson Reunion.

ALLEN WEEKS . . . son of Mr. and Mrs. Lelon Weeks, exhibited the Grand Champion steer at the 33rd annual Coffee County 4-H Fat Calf Show. Allen is a member of the Kinston 7th grade 4-H Club.

33rd Fat Calf Show Ends

The 33rd annual Coffee County 4-H Fat Calf Show was deemed highly successful. Allen Weeks of Route One, Kinston, exhibited the Grand Champion, Danny Lewis of Route 2, Brundidge, second place went to Danny Lewis of Route 2, Brundidge, second place went to Danny Lewis of Route 2, Kinston, and third place went to Dale Harrison of Kinston.

The placing of the heavy weight class went as follows: 1st place -- Carl Sanders of Route 2, Brundidge; 2nd place -- Danny Lewis of Route 2, Brundidge; 3rd place -- Tommy Stinson of Route 2, Kinston; 4th place -- John Bowman of Route 2, Kinston; 5th place -- John Bowman of Route 2, Kinston.

The placing of the light weight class went as follows: 1st place -- Ginger Wise of Route 2, Brundidge; 2nd place -- Tommy Stinson of Route 2, Kinston; 3rd place -- Tommy Stinson of Route 2, Kinston; 4th place -- Tommy Stinson of Route 2, Kinston; 5th place -- Tommy Stinson of Route 2, Kinston.

Monthly News

MAY 1969

WHEN DOES BABY HAVE FEVER?

In a healthy baby the body temperature does not stay at 98.6. It is always varying a little up and down. Lowest in early morning, highest in late afternoon. It will also change with activity and could go to 100 after running around for several minutes.

RECTAL VS. ORAL TEMPERATURE

The body has different temperatures. Rectal temperature is always a little higher, perhaps .4 of one degree. When telling your doctor about fever always tell him by which method it was taken.

RECTAL VS. ORAL THERMOMETER

The only difference between the two is in the shape of the bulb. The rectal is rounder and longer and thinner so it will be warmed more quickly by the mouth. The markings are exactly the same. Do not use an oral thermometer in rectum. The bulb can break.

HOW LONG SHOULD IT TAKE?

Most thermometers register well enough in a minute in the rectum. Orally it will take 1 1/2 to 2 minutes because the bulb is surrounded by air.

USE A HIGH QUALITY THERMOMETER

We stock both rectal and oral thermometers made by reputable manufacturers. We suggest you have one of each in your family medicine cabinet.

By Tom Casaday, County Extension Chairman

FEEDER PIG PRODUCTION

A few days ago I was in a meeting where a group of men were discussing the advantages of growing feeder pigs over topping hogs out for the market. Some folks believe that if a certain amount of money is invested that a person could make a little more money with feeder pigs. I don't know the answer but it might be good to have some research done on this. I am sure that the price being received would greatly affect profits.

Eight feeder pig associations are operating in Alabama and during January, February and March they sold 25,000 pigs for \$427,000. These pigs averaged 56 pounds and sold for 30¢ per pound.

4-H Calf Show

Extension Farm Agent, Dan Presley and some of his 4-H members and calves will appear on the Gene Ragan Farm Show Saturday night. This Saturday night is the date for the Coffee County show which will be held at the Little League Field located just east of the Enterprise Recreation Center. Dr. R. Deese of Auburn University Extension will judge the show. Plenty of seats will be available for the show and we invite all those who are interested in watching these boys and girls show their calves to attend.

The placing of the heavy weight class went as follows: 1st place -- Allen Weeks of Route 2, Brundidge; 2nd place -- Danny Lewis of Route 2, Brundidge; 3rd place -- Tommy Stinson of Route 2, Kinston; 4th place -- John Bowman of Route 2, Kinston; 5th place -- John Bowman of Route 2, Kinston.

The placing of the light weight class went as follows: 1st place -- Ginger Wise of Route 2, Brundidge; 2nd place -- Tommy Stinson of Route 2, Kinston; 3rd place -- Tommy Stinson of Route 2, Kinston; 4th place -- Tommy Stinson of Route 2, Kinston; 5th place -- Tommy Stinson of Route 2, Kinston.

Dr. Richard Deese from Auburn acted as the official judge. The show was financed by businessmen of Coffee County and sponsored through the 4-H Club Council.

GARDEN INSECT CONTROL

Do you want to know what to use to control garden insects? 5% Malathion will control bean leaf beetle, spotted or strip cucumber beetle, Colorado potato beetle, stink bugs, aphids, spider mites and cabbage worms. To control blister beetles use 10% Mathoxychlor or 5% Sevin. Use 20% Toxaphene on the soil surface to control worms. It takes 20% Sabadilla or 1% Rotenone to control the squash bug.

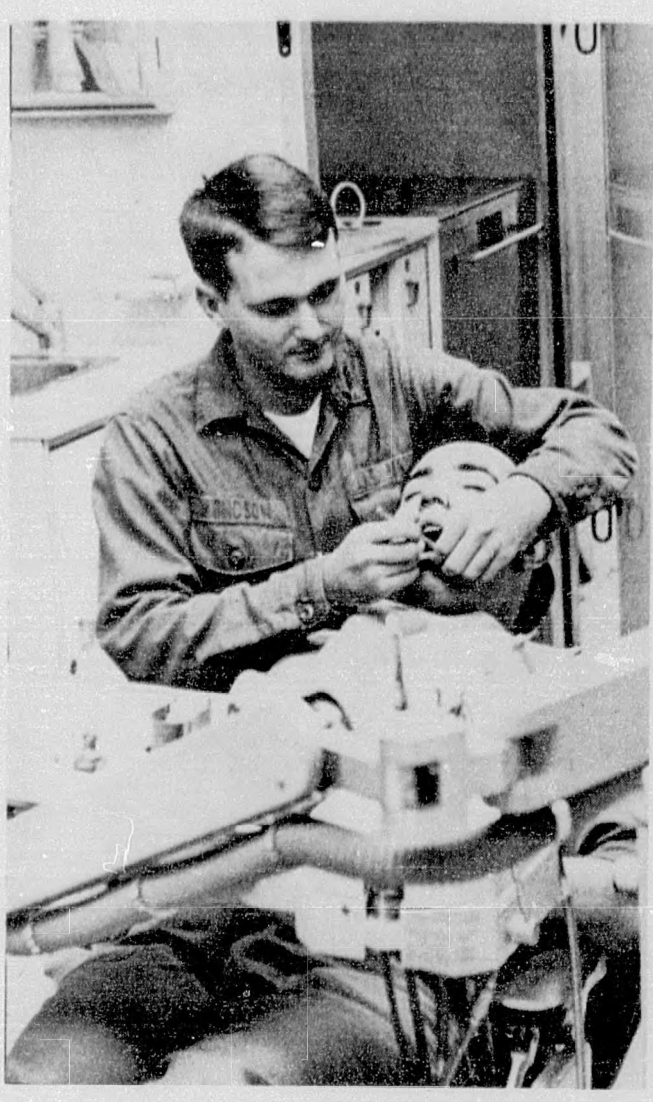

If you have any questions, contact us.

FIRE ANT POISON

Fire ants seem to be more numerous than ever. Most folks know about the painful sting that they cause and everyone wants to know how to control them. Where animals are to be grazed, Myxex is the only recommended material. On road beds and other places where animals will not be grazing, you could use Heptachlor, Dieldrin, Aldrin and Chlordane. The safest material to use is Myxex and we will be glad to work with the Coffee County Fire Ant Committee in getting any amount that you need. Usually 3 to 5 pounds per acre will take care of heavy infestation. If we can help you don't hesitate to call on us.

DIARYING

We have changes in the

IN VIETNAM . . . Dentalman Samuel M. Edmondson, Jr. (Elba) performs routine dental inspection on fellow dental worker, Robert Hankinson, (Atlanta) in the Naval Mobile Construction Battalion 121 Dental Clinic in Gia Lai, Vietnam. Edmondson is the son of Mr. and Mrs. Samuel M. Edmondson of 804 Buford St., Elba. He graduated from Elba High School in 1964. He attended Auburn University from 1964-66. He joined the Navy August 14, 1967 and reported to Dental Technician 'A' School in San Diego, Calif. Edmondson has been with 121st Seabees since May 5, 1968.

Do you have some houseplants that look sick? They can be revived and put on the road to good growth by spotting houseplants each spring makes them grow strong during the summer and makes them better able to withstand the winter, says Extension Horticulturist Ronald Shuck of Auburn University.

"This annual job is necessary if you want your plants to continue growing," he adds.

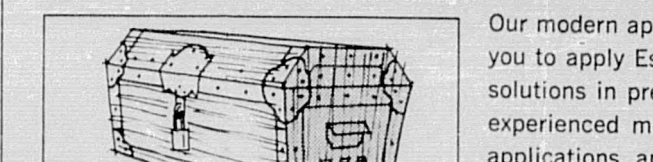

A 2-inch increase in pot size will usually give best results. If you are going to use an old pot, scrub it thoroughly. Soak new porous clay pots for at least an hour to replace the air in the walls with water.

Prepare a good soil mixture of three parts good garden loam and one part organic matter (well-decomposed manure, leaf-mold, compost or peat), and the soil from the old pot, force the roots apart with your fingers. Further loosen the root mass so it can come in contact with the fresh soil.

Place a piece of broken pot, concave side down, over the hole in the new pot. Cover this drainage material with enough soil so that the plant and soil ball will be below the rim of the pot when pressed down gently.

Place the plant in the center of the pot and add soil gradually. Pack the soil firmly with your fingertips as you add it, leaving no large air spaces. The soil surface should be one-eighth to one-third inch below the rim of a pot 2 1/4 to 4 inches in diameter and one-half to 1 inch below that of a pot 5 to 8 inches in diameter.

Sleeping bags made of tightly woven cotton duck can be finished to appear as chintz, gingham, moire, denim, matelasse, or pique.

So you think it costs you a bundle to run the family car?

The average American motorist this year will buy one tire, 40 quarts of oil, 700 gallons of gasoline, and will spend \$982, excluding taxes, to keep his car clean and operative.

However, James D. Edgett, president of North American Van Lines, Inc., of Fort Wayne, Indiana, faces a different set of problems.

In one year, he and his director of fleet maintenance must buy approximately 8,000 tires, 3,000 quarts of oil, 3,000 gallons of gasoline and diesel

fuel, 26,000 vehicle washes and 3,000 grease jobs.

The firm also spends \$25,000 on safety inspections, \$50,000 repainting the fleet and \$18,000 on cleaning pads, which are used to protect household goods.

In 1967, Edgett said, "Our total maintenance cost was \$1,380,000. This year we expect the sum will reach \$1,500,000."

North American, one of the country's largest moving companies, has more than 6,000 pieces of equipment and a network of 1,300 agents in 50 states and 60 foreign countries.

Marion Brunson Plans To Publish Book

"A Backward Look," a history of the Brunson Reunion, has been written recently by Marion Brunson. It is being published by Paragon Press in Montgomery and will be ready for distribution about July 1.

Marion, an Elba native, is the younger son of Mr. and Mrs. Fox Brunson of Elba. He is a former principal of Elba High School and is presently principal of Hillcrest Elementary School in Enterprise. He and his wife, Nancy, and their four-year-old son, Bailey, live on Holly Hill Road in Enterprise.

The eighty-page book presents more than a century of history associated with the Brunson Reunion. It is one of the oldest traditions in Coffee County where it has been held for six generations. The book contains historical facts, customs, people and events. Much history of Coffee County and folklore is included in the valuable book which also includes a picture section.

Marion, a former principal of Elba High School and is presently principal of Hillcrest Elementary School in Enterprise. He and his wife, Nancy, and their four-year-old son, Bailey, live on Holly Hill Road in Enterprise.

COFFEE CONSERVATION

By G. L. EDWARDS
Full Conservation Service

Electrician's Mate Third Class George E. King, USN, son of Mrs. Es-Elba, and husband of Mrs. Mary K. King of Route 1, Jack, is serving aboard the attack aircraft carrier USS Lexington at Pensacola, Fla.

The ship recently recorded its 240,000th landing -- the largest number of landings ever on a sea-going vessel.

The 26 year old carrier, operating in the Gulf of Mexico, is a training ship for Navy and Marine Corps aviators.

If you don't think such a program is needed, we

would like to take you on a "Colored slide" tour of the county.

GEORGE KING
SERVING ON BOARD
USS LEXINGTON

As members of the Technical Action Panel and employees of SCSS, we are ready and able to assist any and all groups who desire to provide for the disposal of solid waste in our county.

One way of helping to solve these problems is use of the soil survey in planning new home sites. Contact your Soil Conservation Service office in Elba or Enterprise.

DELAY MEANT SUCCESS

Sometimes it pays to have a conservation job delayed. Ed Windham of the Damascus Community applied for ACP assistance to retrace a 14 acre cropland, with the intention of getting it done this spring. However, he broke the land before a contractor could be obtained. Not wanting to break the land again, he decided to put off the terracing.

All was not lost though as Windham got the contractor to go ahead and shape two waterways in the field. These waterways have already been planted to Coastal Bermuda. So, next year or this fall when he gets around to doing the terracing, a soil of bermuda will be there to handle the run-off water from the new terraces.

TOMORROW'S COMMUNITIES

Pure air, clean water, stable soils, productive crops, pasture, range and forest lands, abundant wildlife and natural beauty are essential if man is to live in harmony with his natural environment.

The space for growth is in rural America. Through wise conservation and development of natural resources, rural areas can be ideal sites for communities of tomorrow.

Your soil conservation district can help our community with its plans for future growth.

CLEANUP SEMINAR

The recent rural cleanup seminar conducted by the Farm Bureau at Enterprise State Junior College was most interesting and informative. A follow-up meeting will be held May 1 to kick-off the cleanup project in Coffee County.

Unless the citizens of our county show their support

for the cleanup project, the

cleanup project will be a failure.

ASC Committee

Fight Growing Gullies

The Coffee County ASC Committee has received approval from the State ACP practice for 1969.

Application for cost shares should be filed at once with the Coffee County ASC Committee at its office in New Brockton.

Cost shares are available for this practice at 80% of the estimated cost.

Further growth of present gullies can be stopped and areas already damaged can be healed. This practice will prevent severe loss of fields, roads, streams, and buildings when conservation measures are applied on the

Farmers Warned

Of Child Labor Restrictions

Several thousand young-sters will work on farms across the state this summer.

Their employers, "cautious Extension Public Affairs Specialist Fred Woods," must conform to the wage and hour restrictions that apply to a worker under age 16, unless the youth works on his family's farm.

Non-family youths are not allowed to handle most pesticides and herbicides. They cannot operate power-driven vehicles or power

equipment such as a saw or post hole digger. And old to operate farm equipment, adds Woods. "How- ever, the employer must keep the youth's training program certificate during the period of employment."

A special government training program will

qualify a 14 or 15 year old to operate farm equipment, adds Woods. "How- ever, the employer must keep the youth's training program certificate during the period of employment."
